

# Minute to

# Win it

25 different games to play  
with your students!

# Games

Each game comes with a list of materials needed.

You can play the games just like the TV show or you can play them how you want.

This is how I play Minute to Win it in my classroom!

I break my class into pairs. I let them pick their teammate. Then I use a large sheet of butcher paper to make our score board. I make a large grid. Each team gets to play every game. Sometimes the game is for one person and sometimes it takes both teammates. The kids have to decide which teammate will play when the game requires one player. If the team wins the game in the minute. They get a point. If they don't complete it, they don't get a point. The team at the end of all the games that has the most points wins!

I like playing this way because every team gets to play every game!

Check out my [blog post](#) from 2013 showing you the games in action!

# Thanks to

I did some research and put together some games I want to play with my class for some end of the year fun! I take NO credit in coming up with these games.
